# Our principles

## SPECIALTY

We work on complex projects and niche tasks. We work even on those ones that were rejected by other companies.

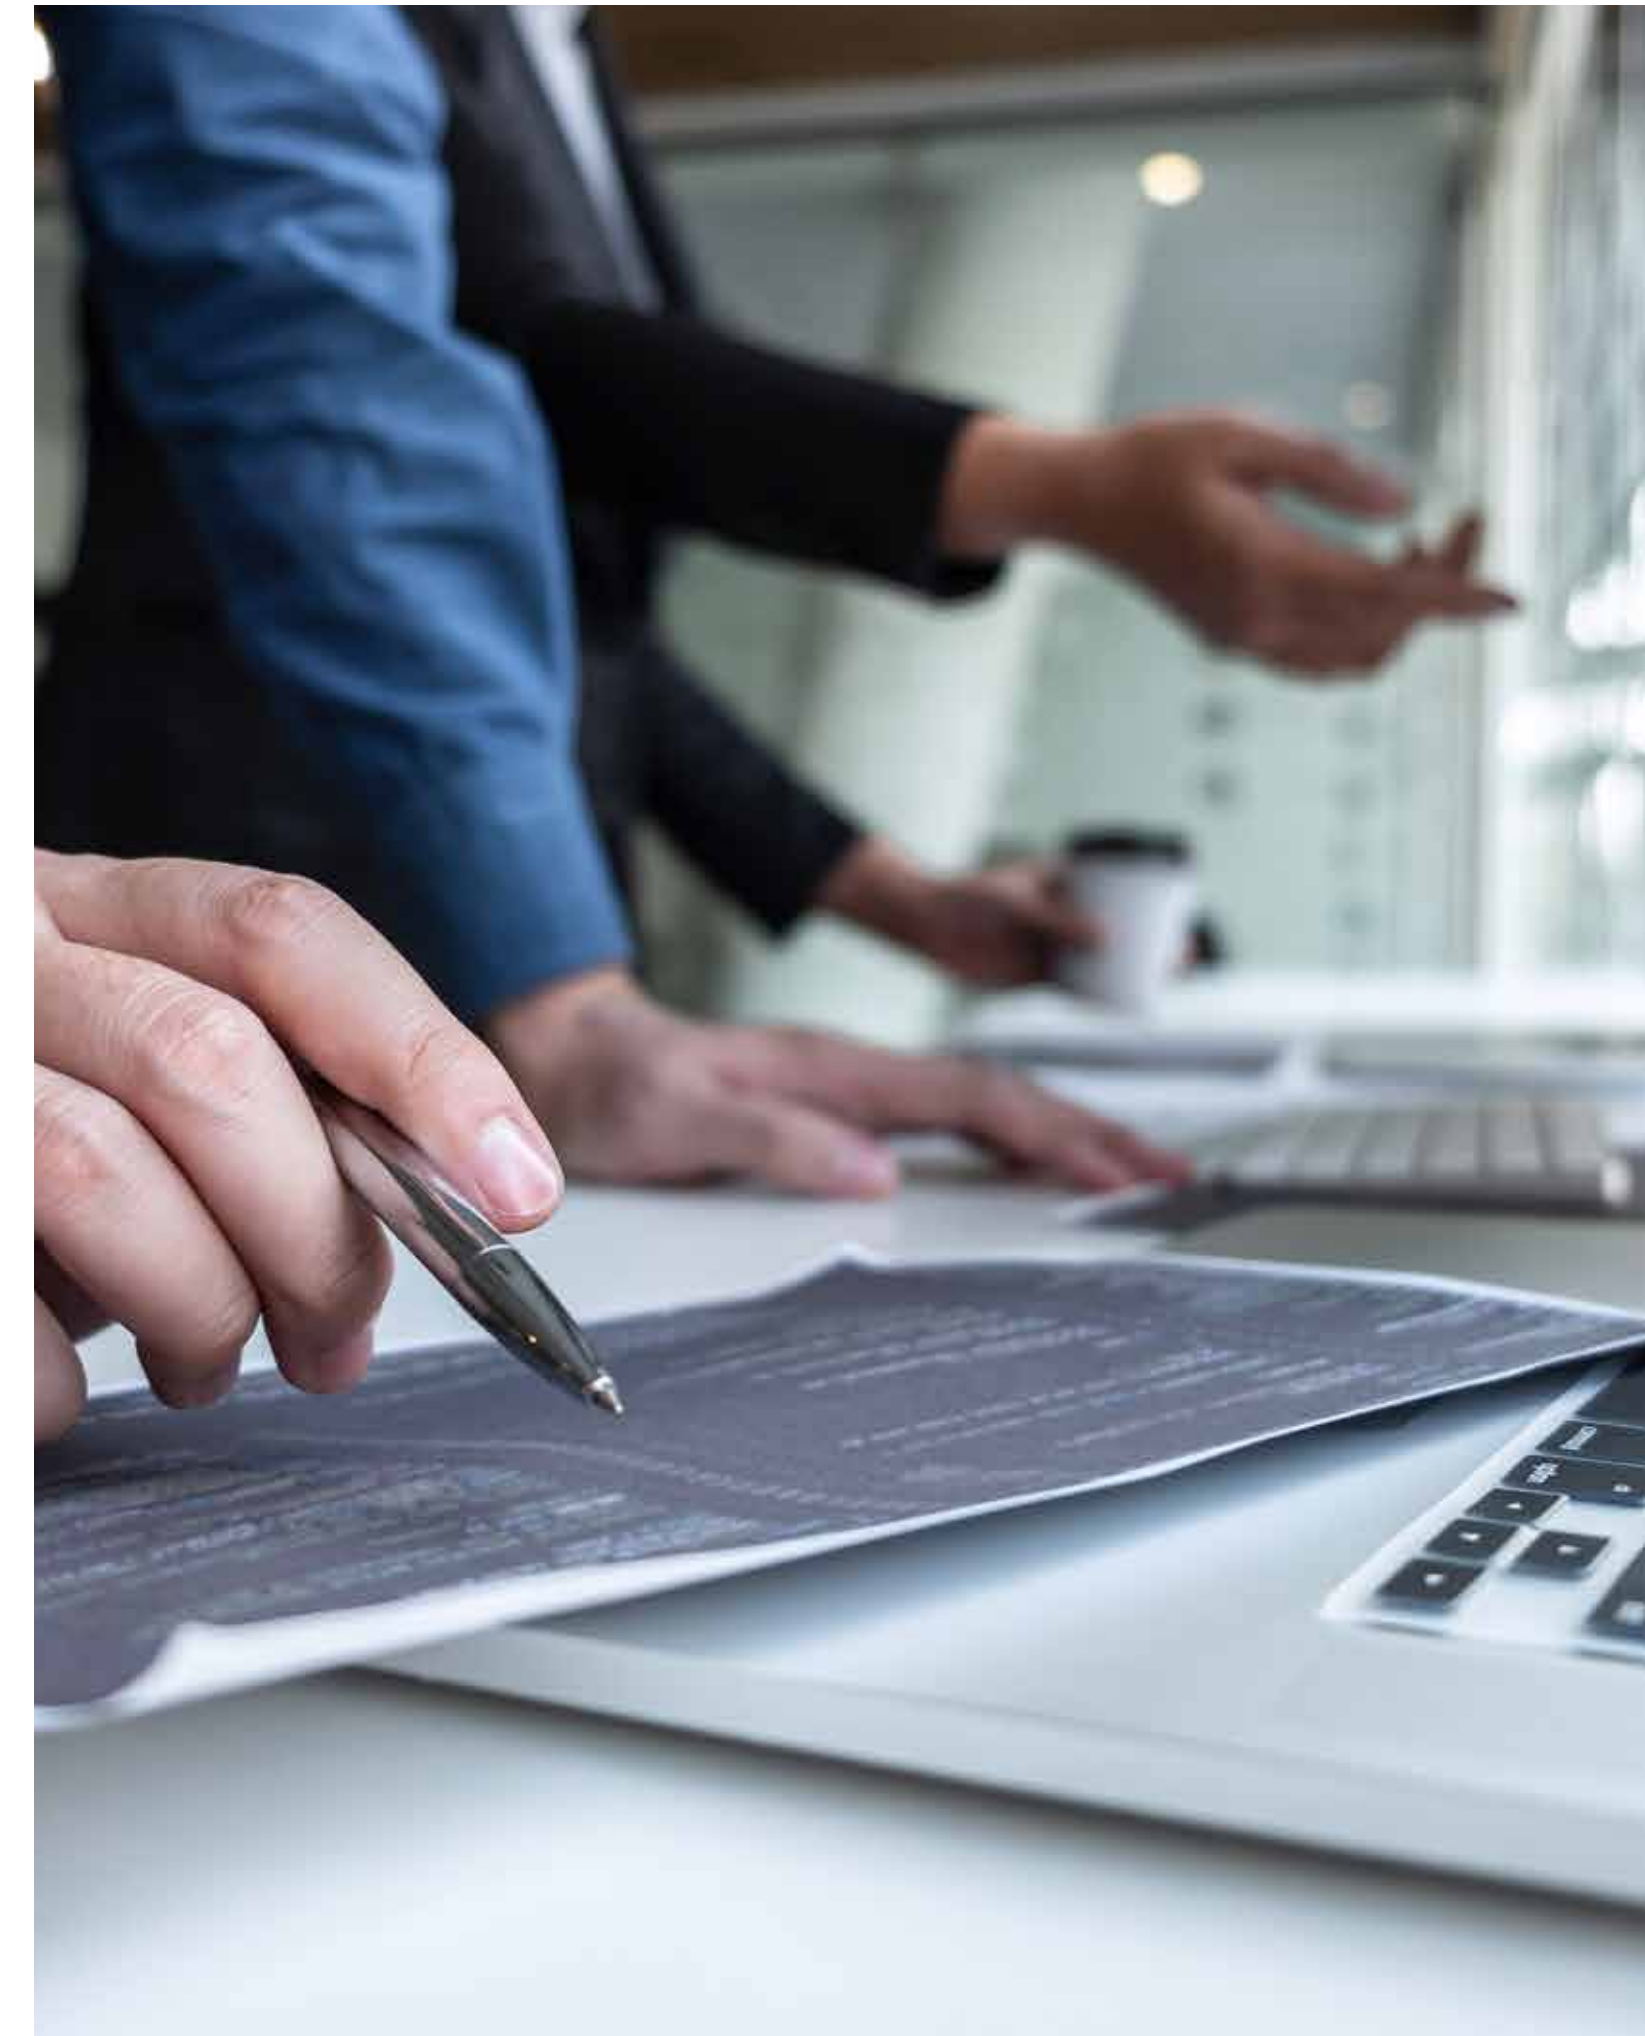

## RESPONSIBILITY

We take the risks on moments unprovided by SOW. We perform minor correction works (up 10% of labor hours of the whole project) at no extra cost

## PARTNERSHIP

We follow the principle – partnership for the life term. We appreciate long-term business relationships, which include our deep plunging into specifics of your business, rather than single-time contracts.

Our professional motto is to make more than we promised
